

BROTHERS BEYOND BORDERS

A DIGITAL SERIES

Ever met someone from the other side of the world -- literally -- and thought they could be your brother? That's what happened to Peter and Julius.

This isn't a series about long lost parents or a miraculous DNA discovery, but how people from different parts of the world can come together and enjoy fine food, unique drinks, and experience the best life has to offer. It's about how to dress up or dress down, and yet be comfortable in any surroundings.

These guys somehow manage to find the coolest spots in every city they visit, without busting their wallets. Their perspectives are unique, yet remarkably similar. Kinda what you'd expect from brothers.
